- Panel: Sharing journeys into the Empirical Ethics
- Chair-led panel discussion
- Audience Q&A
- Social Event

A Guide to Getting Started in Empirical Bioethics

Who is this resource for?

- HDRs/ECRs
- Researchers in other fields (e.g. philosophy, sociology) unfamiliar with empirical research and/or bioethics
- Researchers who want a useful reference bibliography

What is it?

- A **plain(er)-language guide** to frequently asked questions around empirical bioethics – what is it, why do we do it, how do we do it?
- A reference bibliography
 - Will be periodically updated

Why did we make it?

- Had a lot of conversations with disciplinary skeptics who don't see the value in either empirical data, or ethical theory
- Want to provide an accessible guide to help HDRs/ECRs engage with methodological considerations
